

## MONTGOMERY COUNTY FIRE AND RESCUE SERVICE DRIVER/OPERATOR TRAINING PROGRAM

# Practical Application Guide Sheet

### 2nd Due Tanker Dump Site Operations

**Driver Performance Competency:** The driver candidate will operate as 2nd due Tanker on a rural house fire assignment. The Tanker will support the clappered Siamese, flow water to the 1<sup>st</sup> due Tanker and set up a folding tank.

1. Position Tanker near driveway or street leaving room for the folding tank at the driveway or at a location designated by the WSGO. Stop engine and apply parking brake. \_\_\_\_\_

2. Place wheel chock. \_\_\_\_\_

3. Engage pump. Listen for pump to engage. Check speedometer to read 10-15mph. Check for indicator light activation in cab and on pump panel. \_\_\_\_\_

4. Support fire attack by supplying tank water to clappered Siamese until tank is empty. \_\_\_\_\_

### Folding Tank Operations

5. Deploy folding tank from apparatus using hydraulic or manual deployment method. \_\_\_\_\_

6. Set up a folding tank from Tanker in proper position at end of driveway or at a location that will not impede other apparatus movement. Allow room for the draft engine. \_\_\_\_\_

7. Deploy a salvage cover under the folding tank to protect the tank. \_\_\_\_\_

8. Position tank on a flat surface if possible, free of obstructions that may damage the tank. Position drain chute at the lowest end. \_\_\_\_\_

9. Assist engine driver in preparing for drafting operations. Provide engine driver with appropriate appliances. \_\_\_\_\_

10. Proceed to fill site when tank water is off-loaded. \_\_\_\_\_
